California is alive with activity in parapsychology, metaphysics and other significant areas of human growth potential. Uni-Com Foundation directly supports this activity by serving as its information hub.

The major service which the Foundation now provides is UNI-COM GUIDE, a **monthly** calendar of spiritual and personal awareness activities scheduled throughout California. This popular publication allows "new age" organizations to announce in advance the dates and contents of their meetings to a large and interested audience of individuals and other organizations. The cost of publishing UNI-COM GUIDE is supported by paid advertising and by modest subscription fees of \$3/year, or \$5/two years.

In the process of gathering information for UNI-COM GUIDE, the Foundation becomes aware of leaders who are available for service in counseling, speaking, teaching, research, seminars and retreats. Frequently this awareness, discreetly coupled to organization needs for such talent, results in effective new relationships. Uni-Com Foundation does not solicit funds for this and other informal services but is supported by those who see the value of such work and voluntarily wish to become a sustaining part of it.

Uni-Com Foundation is a non-profit and non-denominational corporation which lovingly encourages the achievement of a loving society. Uni-Com also offers two additional services of a mail order book catalogue and a small monthly pamphlet of articles by Metaphysical teachers.

UNI-COM Foundation

UNI-COM FOUNDATION is a non-profit, non denominational corporation, serving in the fields of Parapsychology and Metaphysics, formed primarily to serve at the request of groups, individuals, and churches who desire greater effectiveness. We seek to act as a resource center and to be a bridge between groups. The goal is to be a servant-organism in the fulfillment of the master plan for this world. We know of teachers and speakers who are available for whatever service they can render in counseling, speaking, teaching, research, seminars and retreats. UNI-COM FOUNDATION does not solicit funds, but is supported by those who see the value of the work we are doing and voluntarily wish to become a sustaining part of it. There are no specific financial requirements placed on the local groups for our service.

ALL ON THE SAME ROAD

Guest Editorial

by

DAVID ST CLAIR

There is an old saying that "all roads lead to Rome". It seems to be true in the metaphysical world as well. Too bad that so few see it.

As someone who has been in the researching and participation end of things psychic, occult, and metaphysical for six solid years, I've been dismayed by the disdain some adepts show for others. They seem to have an idea that if their particular bag is astrology that all other astrologers should see and do things their way. Or if a numerologist meets a tarot reader each one considers herself more advanced than the other. Some spiritualists look down on psychics that are able to make spirit contact yet haven't had "professional" training. Others figure that if a medium tells fortunes she is not "serving" her clients because they should have "higher" astral level readings.

Yet all those people are going in the same direction---to oneness with the Source. (I call Him or It -- or maybe She -- the Source rather than give it a label like God, Cosmic Consciousness or Energy.) This Source is there waiting for all of us and those that eventually make it in this lifetime are just as worthy as another who has traveled the distance by another path.

Few of us are native born Californians, yet we have reached this "promised land" by coming from all points of the globe by different routes. The "promised land" of the psychic world is also attainable by any old route you choose.

A very wise old man once told me that there was a difference between being psychic and being spiritual. All psychics are not spiritual he said and for quite awhile I couldn't figure out what he meant. Then I got to know several psychics personally and I saw for myself. I saw human beings able to read cards, draw charts, light candles and read palms who were far from being the nicest people in town.

Yet when I saw a spiritual psychic the differences were immediately apparent. Not that they went around talking about God or praying holes in heaven or working on the board of their local church, no. It was more an attitude of how they should conduct themselves and how they could best use their gifts for the benefit of others. I have seen spiritual psychics who would drink beer, smoke a cigarette and enjoy themselves at a party. Being of this world and enjoying world things did not make them less spiritual. Their spirituality was not bogged down in the mud of the earth but was way up there somewhere, where clouds are white and skies are blue.

But before we all despair of being classed as non-spiritual let me add one more thing I've observed. The longer a person remains a working or a studying psychic the closer he gets to his own spirituality. Atheists have begun to have doubts as they practised tarot readings for their friends. Those with an ability to heal have begun to suspect that those miraculous powers were coming from some outside source, not from their own bodies. Astrologers, figuring away with pen and pencil, have come up from their charts wondering who or what makes their calculations work.

Eventually all these roads come together. Differences are forgotten. We see that everybody's system works. It humbles us but at the same time it gives us courage.

FROM THE DIRECTOR

As I sit here today, I contemplate the wonders of the things I have learned, the wonders of the things that are coming to be known to the man on the street! Everywhere there is a tenseness, a straining at the leash, so to speak - a seeking to find out where one stands in the present world crisis, and as to what will be the outcome. But before we can become aware of the world outside, we must become aware of the world within the inner being. This we must establish and develop and secure before we try and direct the other fellow. But all of us are concerned with directing the other guy first and then becoming aware of our selves. At this point in our development we should learn to adjust to life and direct only love to the other people, thus allowing ourselves to develop to the utmost. We can work with all if we do it with love and understanding. To understand is to become aware. If we cannot become aware, then we live in a world of misery and not knowing. Briefly let us be aware of the feelings, of those around us. Learn to let each man play his own bag. And you follow your own bag. As David St. Clair has said all roads do come together in the end, and each of us has our own path to get there. So let's become beacons of light and send light and love to all other beings and develop our own inner awareness. This inner awareness is very important for us to strive for, to set as a goal of life. But also to be aware of those around you and to send them the mental love that they need.

Patricia Wortman

a weekend workshop with

C. C. Bateman

THE NATURE AND FUNCTION OF THE ETHERIC BODY
AND THE IMPORTANCE OF YOUR DREAMS

Led by C. C. BATEMAN

Friday 8 p.m. to Sunday 5 p.m., May 4th to 6th

TWO SUBJECTS will be explored and experientially developed on this unusual weekend with Mr. Bateman: 1. The first will deal with how the etheric body influences the health of the physical, emotion emotional and mental states of man. It will include what we must do to keep our etheric body free from congestion and what we can do to keep its vital pranic fluids circulating freely. 2. The second subject will be on methods of increasing dream remembrance and on how to analyze our dreams. It will also relate to how "continuity of consciousness" between planes of activity may be developed through dream recall.

Cost: \$25 per person or \$40 per couple (luncheon included)
Registration may be mailed to ICC Headquarters, 17819 Roscoe Blvd., Northridge.

The program will only be given in the northern part of the state this time, Cupertino & Berkeley.....ICC's northern California steering committee is hard at work organizing, contact David Anderer for information.....

and moved the known world!

The secret science of the masters has been
re-discovered and offers you self-development
far greater than thought possible centuries ago.

JESUS

Jesus of Nazareth probably the world's first nuclear scientist, practiced a secret system. Just what this secret science was has escaped the world's best thinkers for nearly 2,000 years. Now it has been rediscovered in its entirety. That this secret science was known to other world teachers has now been proven.

BUDDHA

Guatama Buddha was a prince and lord of ancient India. Yet he wanted something better out of life. His search for the secrets of life is known to all those who have read of his fascinating quest. Today thousands of students apply techniques of meditation and believe they have found the all of Buddhism. This is not so.

VIRACocha

Viracocha of Peru walked the Americas teaching the lost arts of self realization. He assumed many different guises and was known under various names. He taught man how to develop his latent potential, how to regenerate himself and live to great ages. With the coming of the Spaniards the secrets of his teachings perished.

"We are sleeping, having forgotton who we are.... man is greater than his outer appearance, for he is truly the power which resides in the physical form.... When you have risen above the physical, you will have learned the first lesson of Spirituality.... The perfect Master will not only tell you the true way, but will give an experience of it, which, if you practice daily, will steadily increase.... Those whose eyes are awakened, they see the man body as the Temple of God."

THE ART OF THE COSMOS A School & A Technique

The Art of The Cosmos, is a beautiful experience of blending colors and images that touch a deep spiritual awakening within each student. Work is done with the hands, no brush or pallet, using techniques that have been developed over many years. When the hand comes in contact with color a very strange and wonderful feeling is in store for the student . . . Classes are usually conducted with a background of music. The student has the opportunity of learning self awareness, creativity and spiritual advancement through these techniques! Personally conducted classes.
